DO'S AND DON'TS

The airfield from which we operate is a busy active airfield operating both fixed wing and helicopters and can be a dangerous environment for the unwary or uninitiated.

We appreciate that the anticipation and excitement of perhaps a first flight in a helicopter may be a little overwhelming. Hopefully, nonetheless an experience that will be remembered for years to come. However, there are a number of Do's and Don'ts that you should be aware of when visiting EBG Helicopters.

- When you arrive with us please make sure that both you and your guests stay within the marked fence line at all times unless you need to visit the Rest Rooms.
- If at any time you wish to discuss, look at or photograph any of our helicopters please ask and a member of our staff will be happy to escort you and answer any questions you may have.
- Please make sure that any children are looked after and appropriately controlled.
- Please do not leave any rubbish lying around as this can cause serious harm to the helicopters.
- We may on occasion escort you to your helicopter whilst the rotors are running, please make sure that you fully understand the briefing and obey any instructions given to you by EBG staff. *In no circumstance* should you proceed or go out to any helicopter, for whatever reason, without specific authorisation or direction from EBG staff.

Our aim is to ensure that you safely enjoy your flight and visit to EBG Helicopters.

Thank you,

EBG Helicopters

DANGEROUS ITEMS

POISONS

COMPRESSED GAS

EXPLOSIVES

**MATCHES
LIGHTERS**

**INCAPACITATING
SPRAYS**

To ensure the safety of the aircraft and all those on board these items that could pose a danger must not be taken on board.

NOT TO BE TAKEN ON BOARD

IMPORTANT INFORMATION

Thinking of taking Personal Electronic Devices on board an EBG Helicopter?

Mobile Phones & Tablets must in Flight Mode

Action Cameras only accepted at the pilots discretion & only on certain aircraft, must be internally mounted securely in a position so as not to obscure any controls or the pilots vision.

No items to be plugged into the Helicopter power sockets

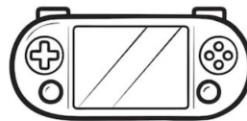

EXAMPLES OF ITEMS NOT ACCEPTED ON BOARD

Laptop

Batteries

Games Consoles

E-Cigarettes

Power Banks

Please advise the helicopter pilot or a member of the operations staff if you wish to take any personal electronic device on board or have any medical related electronic device.

The pilot is responsible for safety and reserves the right to refuse any items being taken on board and also can insist items are switched off mid flight if necessary.

Any misuse of equipment could result in the aircraft landing early with the relevant authorities being notified.
